

AMAR TEX CHEM

COMPANY HAS BEEN IN THE TEXTILE CHEMICAL BUSINESS SINCE 2002

ANTISTATIC AGENT FOR PC, PV, COLOURED, U.V Clear, HARD WASTE

Cottex MBO

COTTEX MBO is chemical processed Product. It is eco-friendly It is **Export & ZDHC** certified product. it is specially designed for the spinning of Hard Waste or Recycled waste in open-end system. The product is highly effective to absorption of water into Fiber to increase strength, smoothness and provide good spinning actions.

Cottex MMBO alone applied for smooth opening & spinning of **hard waste, cotton, PC, U.V CLEAR** and their blends in open-end spinning system.

Using Method

Mix 1 kgs Cottex MBO in 40-50 kgs of water & spray on mixing.

The recommended dosage levels.

Type of fibre	% Cottex MBO O.W.F
Waste, cotton, PC, U.V clear	0.1 to 0.2

(0.1% refer to approx. 1 kgs in 1 ton material mixing)

It is Recommended dose but it will depend on the fibre used & atmospheric condition of the department.

Using Benefits

- Smooth opening of fibres & spinning of hard waste.
- Yarn quality improves, more even yarn, softness increases, breakage rate reduces and neps generation in blow-room and carding reduces.
- Minimum breakage and abrasion and damage to fibre, yarn.
- Reduction in fly and short fibre generation during fibre spinning
- **Mixing cost** - It cost only 5 paise per kg of yarn
