

AMAR TEX CHEM

COMPANY HAS BEEN IN THE TEXTILE CHEMICAL BUSINESS SINCE 2002

Textile Dyeing and Finishing Auxiliaries Applications & Technical Data Sheet

Item No.		0411
Product Name		LA 90 (Leveling Agent)
Applications		Fabric of Polyester fibers and polyester blends etc.
Content		82%
PH Value (1% aqueous solution)		7.0
Solubility		Easily Soluble in Water
Dosage		For 1-1.5 g/L
Appearance		Yellow Transparent Liquid

Features and Applications

- Excellent leveling performance. Can shorten the dyeing time, improve production efficiency and save energy.
- Strong ability. Can effectively decrease the initial dyeing rate and solve dyeing defect problem caused by un- simultaneous dyeing of mixed dyes.
- Reduces silicone spots on cloth and pollution to equipment.
- Excellent anti-staining function. Extremely low foam.

AMAR TEX CHEM

COMPANY HAS BEEN IN THE TEXTILE CHEMICAL BUSINESS SINCE 2002

Textile Dyeing and Finishing Auxiliaries Applications & Technical Data Sheet

Item No.		0410
Product Name		LA 84 (Leveling Agent)
Applications		Fabric of cotton
Content		65%
PH Value (1% aqueous solution)		8.0
Solubility		Easily Soluble in Water
Dosage		For cotton 0.5 to 2.5 g/L
Appearance		Brown Transparent Liquid

Features and Applications

- Improves dispersing ability and dissolving capacity of reactive dyes and direct dyes. Prevents coagulation of dyes caused by salting-out effect.
- Excellent chelating and dispersing effect on metal ions in water. Prevents dyes coagulating or color hue changing.
- Stable in electrolyte and alkali.
- Very little foam.
