

AMAR TEX CHEM

COMPANY HAS BEEN IN THE TEXTILE CHEMICAL BUSINESS SINCE 2002

Textile Dyeing and Finishing Auxiliaries Applications & Technical Data Sheet

Item No.		0409
Product Name		Water Softener (Sequestering agent)
Applications		For water softening
Content		White powder
PH Value (1% aqueous solution)		9.0
Solubility		Easily Soluble in Water
Dosage		2-5 g/L
Appearance		Transparent Liquid

Features and Applications

- Excellent chelating ability for heavy metal ions, as calcium ions, magnesium ions and ions, etc. in hard water.
- Good dispersity for insoluble calcium soap.
- Stable in alkali, oxidizing agent and all kinds of electrolyte.
- Can be applied in scouring, bleaching, dyeing, printing, soaping and finishing process, etc.
