

# AMAR TEX CHEM

COMPANY HAS BEEN IN THE TEXTILE CHEMICAL BUSINESS SINCE 2002

## CONNING OILS

Item No.		0136
Product Name		CO 60 (Conning Agent)
Grade		40
Content		92%
PH Value (1% aqueous solution)		7.0
Solubility		Easily Soluble in Water
Dosage		-
Appearance		Light Yellow Transparent Liquid

### Features and Applications

These are specially formulated antistatic coning oils. They are recommended for use in Textile Industry as finishing agent. They are high refined, light coloured, low viscosity mineral oil-based products containing suitable emulsifier, antistatic, friction reducing and anti-splashing agents to minimize the oil dosage during coning and twisting operation. They provide excellent lubricity to filaments and reduce friction during operation.

## CONNING OILS

Item No.		0127
Product Name		CO 100 (Conning Agent)
Grade		60
Content		92%
PH Value (1% aqueous solution)		7.0
Solubility		Easily Soluble in Water
Dosage		-
Appearance		Light Yellow Transparent Liquid

## TEXTILE OILS

Item No.		0125
Product Name		TO 60 (Conning Agent)
Grade		60
Content		70%
PH Value (1% aqueous solution)		7.5
Solubility		Easily Soluble in Water
Dosage		-
Appearance		Yellow Transparent Liquid

### Features and Applications

These are specially formulated antistatic Textile oils. They are recommended for use in Textile Industry as finishing agent. They are high refined, light coloured, low viscosity turkey red oil-based products containing suitable emulsifier, antistatic, friction reducing and anti-splashing agents to minimize the oil dosage during texturizing and twisting operation. They provide excellent lubricity to filaments and reduce friction during operation.
