

# AMAR TEX CHEM

COMPANY HAS BEEN IN THE TEXTILE CHEMICAL BUSINESS SINCE 2002

## Textile Dyeing and Finishing Auxiliaries Applications & Technical Data Sheet

Item No.		0412
Product Name		AFA 40 (Fixing Agent)
Applications		Fabric of cotton, Viscose, Modal, Lyocell and there blends etc.
Content		52%
PH Value (1% aqueous solution)		7.0
Solubility		Easily Soluble in Water
Dosage		For cotton 5-15 g/L
Appearance		Yellow Transparent Liquid

### Features and Applications

- Significantly improves washing color fastness, perspiration color fastness, wet rubbing color fastness of direct dyes and reactive dyes.
- Obviously improves the washing color fastness, perspiration color fastness and soaking color fastness of reactive bright red and black.
- Extremely little color fading and color shade changing.
- Suitable for padding process, which saves water.

# AMAR TEX CHEM

COMPANY HAS BEEN IN THE TEXTILE CHEMICAL BUSINESS SINCE 2002

## Textile Dyeing and Finishing Auxiliaries Applications & Technical Data Sheet

Item No.		0414
Product Name		AFA 80 (Fixing Agent)
Applications		Fabric of cotton, Polyester & nylon and there blends etc.
Content		40-45%
PH Value (1% aqueous solution)		7.0
Solubility		Easily Soluble in Water
Dosage		For cotton 10-50 g/L
Appearance		Colorless to light yellow Transparent Liquid

### Features and Applications

- Significantly improves washing color fastness, perspiration color fastness, wet rubbing color fastness of direct dyes and reactive dyes.
- Obviously improves the washing color fastness, perspiration color fastness and soaking color fastness of reactive bright red and black.
- Extremely little color fading and color shade changing.
- Suitable for padding process, which saves water.
