

# AMAR TEX CHEM

COMPANY HAS BEEN IN THE TEXTILE CHEMICAL BUSINESS SINCE 2002

## Textile Dyeing and Finishing Auxiliaries Applications & Technical Data Sheet

Item No.		286
Product Name		WA 7X (Wetting-Re Wetting Agent)
Applications		Various Kinds of fabric
Content		70%
PH Value (1% aqueous solution)		7.0
Solubility		Easily Soluble in Water
Dosage		Dilute by 1:2 and then use 5-10 g/L
Appearance		Transparent Liquid

### Features and Applications

- Excellent property of washing, wetting and penetrating.
- Stable in high temperature, acid, alkali & hard water.
- Excellent removing effect for chemical fiber heavy oil and spinning oil in polyester and nylon.
- Excellent anti-staining function.
- Good compatibility, can be used together with various kinds of surfactants.
- Can be applied in pretreatment, dyeing and finishing process.

# AMAR TEX CHEM

COMPANY HAS BEEN IN THE TEXTILE CHEMICAL BUSINESS SINCE 2002

## Textile Dyeing and Finishing Auxiliaries Applications & Technical Data Sheet

Item No.		289
Product Name		WA 9X (Concentrated Wetting-Re Wetting Agent)
Applications		Various Kinds of fabric
Content		85%
PH Value (1% aqueous solution)		7.0
Solubility		Easily Soluble in Water
Dosage		Dilute by 1:4 and then use 5-10 g/L
Appearance		Transparent Liquid

### Features and Applications

- Excellent property of washing, wetting and penetrating.
- Stable in high temperature, acid, alkali & hard water.
- Excellent removing effect for chemical fiber heavy oil and spinning oil in polyester and nylon.
- Excellent anti-staining function.
- Good compatibility, can be used together with various kinds of surfactants.
- Can be applied in pretreatment, dyeing and finishing process.
